Chef Paul Haveck, a native to the Midwest, brings sensible and approachable flavors with over fifteen years of experience working in the top restaurants of Indianapolis. In 2012 Chef Paul became the Chef de Cuisine of The Libertine Liquor Bar under James Beard-nominated Executive Chef & Owner Neal Brown. Working the day to day operations and developing seasonal cuisine he developed relationships with local farmers and artisans to deliver only the highest quality that Indiana food producers had to offer to the Libertines patrons. Over the next year, Owner Neal Brown's hospitality group would grow from two restaurants to four, and Chef Paul Haveck was called on to take the lead for not only the newly relocated Libertine but also Pizzology a Neopolitan and regional Italian restaurant directly above the industry-leading Craft Cocktail Bar.

In 2015, Chef Paul Haveck took an opportunity to work with The James Beard-nominated talent of Chef Alan Sternberg at Cerulean Restaurant. Cerulean Restaurant held a reputation for bringing modern techniques to fine dining cuisine within the progressive art hotel of the Alexander in the heart of downtown Indianapolis. Guests of the hotel, as well as the locals, rejoiced in the warm hospitality, affordable tasting menus and overall spirit of the acclaimed Indianapolis destination. A little over a year later Chef Paul sought experience in large event catering. The Indiana State Fairgrounds reached out to Chef Paul for his experience in cuisine and Midwest sensibilities. After feeding thousands of satisfied people throughout the year Chef Paul found his home with local caterer Indy Fresh. When asked about his goals with the local caterer he replied: "I look forward to bringing my experiences and fresh take on catered meals to Indy Fresh's loyal customers."
